I. **\*SPECIAL INSTUCTIONS:** If the total on Line 10 is less than zero you will need additional withholding as a result of non-wage income. You can calculate the amount of additional withholding as follows:

- (1) Multiply number on Line 10 by \$110;
- (2) Divide the result by the number of pay periods during the year (e.g. if you are paid monthly, divide by 12); The result is the additional amount of withholding required per pay.

**EXAMPLE:** Total on Line 10 is "-2" and you are paid once a month.

- (1) Line H = 2 x \$110 = \$220.00
- (2) Number of pay periods = \$220.00/12 = \$ 18.33

You should notify your employer on a "**For Delaware Purposes Only**" W-4 that withholding allowance should be "0" and an additional \$18.33 per pay should be withheld for the current year.
